

# ENVIRONMENTAL TRAINING COURSES

We provide training designed to equip all levels of the workforce with the knowledge and skills to help achieve your organisation's environment and sustainability goals. Our IEMA accredited courses are designed for a single delegate through to company-wide programmes.

THE COURSE	WHO IS IT FOR?	HOW DOES IT HELP?
<a href="#">Foundation Certificate in Environmental Management (AIEMA)</a>	Environmental specialists	Provides a solid foundation of knowledge in environmental management. The course covers all the areas of knowledge required to become an Associate Member of IEMA (AIEMA)
<a href="#">Certificate in Environmental Management (PIEMA)</a>	Experienced environmental specialists	Delegates will gain the knowledge and skills that are needed to be an effective Environmental and Sustainability Practitioner. The course covers all the areas of training required to become an IEMA Practitioner (PIEMA)
<a href="#">IEMA Diploma in Sustainable Business Practice</a>	Senior environmental specialists	Addresses a wide range of environmental and sustainability issues and topics, including environmental and social risk identification, strategies for improving performance and personal effectiveness to instigate and lead change.
<a href="#">IEMA Introduction to Net Zero</a>	All job roles and sectors	Designed to give a baseline knowledge of net zero. Available via eLearning, provides an approach to raising awareness across the business.
<a href="#">IEMA Leading with Environmental Sustainability</a>	Senior leaders in organisations	Enables senior executives to create an environmental sustainability strategy for their business

THE COURSE	WHO IS IT FOR?	HOW DOES IT HELP?
<a href="#"><u>IEMA Sustainability Skills for the Workforce</u></a>	Any worker or non-environmental specialist	Provides a practical introduction to environmental sustainability, to equip delegates with the knowledge, understanding and motivation to make a positive difference within their organisation
<a href="#"><u>IEMA Environmental Sustainability Skills For Managers</u></a>	Managers, supervisors and team leaders with environmental responsibilities	Provides the understanding of the strategic and operational implications environmental sustainability has on them, their team and department, enabling them to contribute to the improved environmental sustainability of their organisation.
<a href="#"><u>IEMA Environmental Awareness</u></a>	Steering groups and green champions	Helps to engage and empower people to be more focused and productive, ensuring that environmental objectives are achieved
<a href="#"><u>IEMA Pathways to Net Zero</u></a>	Supervisors and managers across all sectors	With clear and consistent guidance, this course aims to provide a strategic and operational overview of environmental sustainability.
<a href="#"><u>ISO 50001 Awareness Training Workshop</u></a>	Senior leaders and environmental specialists	Designed for organisations planning to implement and achieve third party certification, this course provides a general overview of the concepts and key requirements of the ISO 50001 standard.

We offer a variety of different delivery methods, including classroom, virtual, eLearning, and eLearning Extra. Our team of experts can work with you and your organisation to develop a bespoke programme that focuses the learning outcome on your specific requirements.
