

PEOPLE TRAINING & DEVELOPMENT

makeuk.org/hr-services

FLEXIBLE PEOPLE TRAINING AND DEVELOPMENT TO BUILD SKILLS AND CONFIDENCE

We offer a comprehensive range of training courses to help you manage, protect, and develop your people while staying compliant.

Many of our courses are also CPD accredited.

Why accredited CPD makes a difference?

By choosing an accredited CPD provider, you are able to guarantee that the training you or your employees receive, matches your organisation's high standards.

Want to show that your organisation is committed to maintaining a 'learning culture' and ensure your employees feel valued?

Accredited training is more than twice as likely to be shared on social media, allowing your employees to shout their achievements from the rooftops, and further promote your organisation.

And because business never stands still, we constantly develop and update our course offering to reflect changing legislation and meet evolving business needs, delivered through your choice of face-to-face or virtual learning.

Expert trainers

Our trainers are active employment law advisors, HR consultants and Leadership development experts, experienced at providing day-to-day employment law advice, training and consultancy to companies of all sizes.

A variety of delivery methods

We provide a range of face-to-face and virtual delivery methods to complement the learning style of your organisation and its individuals. Whether it is at one of our training centres, at a location of your choice or online.

Off-the-shelf and bespoke options

As well as our portfolio of off-the-shelf courses, we also offer bespoke training, tailored to meet your individual business needs, and designed to get right to the heart of your objectives and goals.

DELIVERY METHODS

In-Company

The training course is delivered specifically for a group of people at your company either face-to-face at a time and place to suit you, or via Virtual Classroom. We'll tailor your course content to your business.

Classroom

Taught with delegates from other organisations at one of our training centres. This rich learning experience allows you to get away from the distractions of the workplace, learn from your peers and focus on your qualification.

Virtual Classroom

For those who want a classroom-based course, without the travel, our virtual classrooms provide an interactive online environment for our training programmes to be delivered at your home or office.

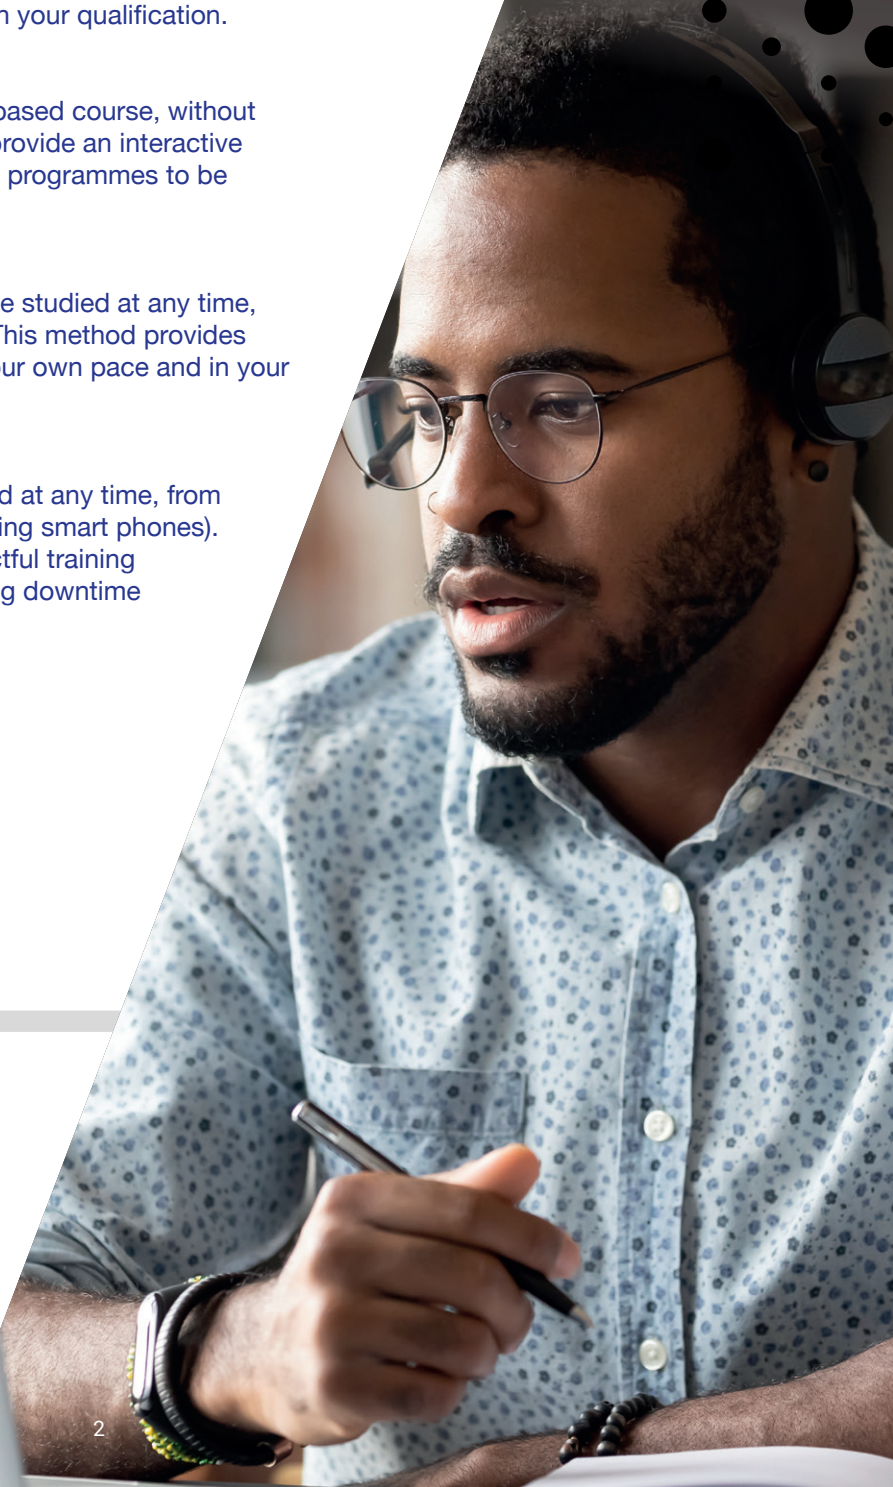

Online

E-learning programmes that can be studied at any time, from anywhere, from any device. This method provides the flexibility for you to study at your own pace and in your own learning style.

Micro Learning Videos

Micro learning that can be watched at any time, from anywhere, from any device (including smart phones). These videos provide short, impactful training in less than 15 minutes, maximising downtime and accessibility.

BESPOKE AND TAILORED PROGRAMMES

As well as our off-the-shelf courses, our team of experts will work with you to develop a bespoke programme that focuses the learning outcomes on your specific requirements, getting right to the heart of your objectives and goals. We'll embed your organisation's values, competencies and working practices with an approach that has great impact and immediate relevance.

Because we offer a variety of face-to-face and virtual delivery methods, we can ensure we match the learning style of your organisation and its individuals. You can take a blended approach to delivery, pick and choose course modules, making this option completely customisable and unique.

THE BENEFITS

- Cost effective
- Time efficient
- Flexible
- Accessible
- Relevant
- Learner focused
- Adaptable

SKILLS FRAMEWORK

Our Skills Framework is built to help you with decision-making for your training requirements, helping you to match our course offerings against the skills gaps and opportunities with your people.

Level 1
Entry level courses

Level 2
Courses aimed at team leaders and supervisors

Level 3
Courses built with managers in mind

Level 4
Senior level courses and professional development

Level 5
Executive and director development
