Globally recognised health, safety
and environmental qualifications

Gives you the knowledge and skills you will need to perform as a leading health and safety professional of the future.

Who is it for?

This qualification is a perfect choice for anyone who wants to make health and safety their career. Building upon the foundation of knowledge provided by the NEBOSH General Certificate, it is particularly relevant for:

- Health and safety professionals or those with aspirations to be one
- People with health and safety responsibilities who want to gain an in-depth understanding

What will I learn?

This qualification will help you build confidence in your capabilities. Through your studies, you will develop the knowledge and skills to:

- understand how health and safety legislation is applied and possible enforcement actions that could be taken
- identify and effectively communicate relevant health and safety information

- advise on a range of common workplace health and safety issues including how these can be assessed, controlled and monitored
- develop a health and safety policy strategy (including proactive safety, Corporate Social Responsibility and the change management process)
- develop a risk management strategy
- promote a positive health and safety culture
- develop and audit health and safety management systems
- maintain individual and organisational health and safety competence
- manage contractors and supply chains to ensure compliance with health and safety standards.

How will it help me?

This advanced health and safety qualification will support your academic and career progression. Success will mean you:

- Gain health and safety skills and knowledge that are relevant to many different sectors

- Develop professional skills so you can lead and influence health and safety issues at all levels
- Hold a qualification that is recognised and respected by employers and your peers
- Meet the academic requirements to apply for membership of numerous professional bodies
- Achieve a sound basis for progression to postgraduate study
- Can use the designatory letters DipNEBOSH
- Are eligible to become a member of the NEBOSH Alumni

Advantages for employers

This qualification has been developed *with* experts *for* experts and offers employers real benefits. NEBOSH Diploma holders can help to:

- Build in-house health and safety expertise
- Develop a safer workplace
- Improve safety culture
- Demonstrate a commitment to health and safety, which can ultimately help win business

How is it assessed?

The assessments focus on the application of knowledge to help you prepare for health and safety tasks you may face in the workplace:

ND1 – Know - workplace health and safety principles	Assignment – workplace-based tasks together with simulations, reflective activities and a research topic
ND2 – Do - controlling workplace health issues	Scenario-based case study
ND3 – Do - controlling workplace safety issues	Scenario-based case study

For each assessment, you will be required to participate in a closing interview about your submitted work.

The qualification requires a minimum of 191 taught hours plus 144 recommended self-study hours and 140 assessment hours.
