

MANUFACTURING PRIORITIES

FOR GREATER LINCOLNSHIRE

The East Midlands manufacturing sector accounts for
£20 BILLION OF OUTPUT

Providing **258,000 JOBS**

AVERAGE WAGES 21% HIGHER

than the rest of the economy in the region

1.

Support the ever growing industrial diversification of the region through policies which allow the transformation of the manufacturing sector to take advantage of the vibrant new and emerging industries throughout the East Midlands, embracing Net Zero, digitalisation and upskilling employees.

2.

Upgrade transportation networks such as roads and public transit by utilising local industry to deliver this. The quality of infrastructure can be a large barrier to accessing labour and skills, the lifeblood of the manufacturing sector. As well as this manufacturers more than other make use of road and rail networks for logistical purposes.

3.

Support manufacturers in the region to **deliver the jobs of the future** through the development of regional skills programmes and incentivise employers. These initiatives provide manufacturers with the skills they need and can launch the career of students in a high paying exciting sector.

MANUFACTURING IN THE EAST MIDLANDS

FOOD & DRINK **20.6%**

TRANSPORT EQUIPMENT **12.7%**

RUBBER & PLASTICS **12.1%**

WHERE MANUFACTURERS IN THE EAST MIDLANDS ARE PLANNING TO INVEST IN THE NEXT 12 MONTHS

1. Expansion of production capacity and improved productivity

(by adopting automation and digital technology)

2. Research and development

3. Existing workforce development and training

WHERE MANUFACTURERS IN THE EAST MIDLANDS SEE THE BIGGEST NEW MARKET OPPORTUNITIES OVER THE NEXT DECADE

1. Sustainable and eco-friendly products

2. Renewable energy technology

(such as wind, hydrogen, nuclear, jet zero)

3. Artificial intelligence and machine learning applications

CHRIS CORKAN, MAKE UK REGION DIRECTOR, MIDLANDS AND EAST OF ENGLAND

Manufacturing has long been a cornerstone of Greater Lincolnshire's economy, and it is essential that the next Mayor strengthens this foundation. By creating well-paid, skilled jobs, manufacturers in Greater Lincolnshire can continue driving growth, particularly by seizing opportunities presented by emerging technologies.

Building upon this, the next Mayor must ensure that the regional infrastructure and skills programmes are improved upon, as these are essential for providing manufacturers with the skills they need to take advantage of emerging industries throughout Greater Lincolnshire.

I look forward to working with the next Mayor to build a strong partnership that ensures manufacturing remains central to the region's long-term vision and economic success.

Make UK is backing manufacturing – helping our sector to engineer a digital, global and green future. From the first industrial revolution to the emergence of the fourth, the manufacturing sector has been the UK's economic engine and the world's workshop.

The manufacturers we represent employ 1.2 million people who have created the new technologies of today and are designing the innovations of tomorrow. By investing in their people, they continue to compete on a global stage, providing the solutions to the world's biggest challenges.

Together, manufacturing is changing, adapting and transforming to meet the future needs of the UK economy. A forward-thinking, bold and versatile sector, manufacturers are engineering their own future.
