

The Apprenticeships Hub. Supporting Ofsted standards.

Supporting safe, inclusive and well-managed Apprenticeships.

The Apprenticeships Hub helps organisations delivering apprenticeships manage apprenticeship programmes in a way that supports safety, wellbeing and compliance. By providing robust administrative support, we simplify logistics while helping clients maintain strong oversight and deliver a positive learner experience.

While safeguarding remains your organisation's responsibility, the Hub and its supporting documentation promote good practice by helping coordinate clear arrangements for apprentice safety, supporting inclusive access to training, enabling continuous monitoring throughout programmes, and providing reliable reporting mechanisms when concerns arise.

Our team understands Ofsted expectations and works alongside clients to meet these – helping to plan, evaluate and continually improve their apprenticeship offer.

Apprentice App

Among the many benefits of the app, apprentices can access emergency contacts and submit feedback at any time. Feedback is continuously monitored to prompt urgent action where needed, alongside monthly reporting to support ongoing programme improvement.

The Hub further strengthens compliance through secure digital audit trails, 24/7 access to travel information, and thorough accommodation and transportation risk assessments.

Safeguarding Policies

Including:

- Non arrival
- Early arrival
- Prevent duty
- Room sharing policies
- Any others outlined in SLA

Issue Logging

Fully audited traffic light system with in-built email notifications and exportable data.

Feedback

Access to feedback dashboard, monitored and reported on monthly to constantly improve hotel and training service.

Programme Support Documents

Instant access to:

- SLA
- Hotel welcome letter
- Safeguard & prevent training documents
- DBSs
- Special requirements
